Tech

- GitHub
- OOP
- PostgreSQL
- API Design
- RESTful API
- TDD
- RSpec
- MVC design patterns

Interpersonal

- Leadership
- Team Collaboration
- Effective Communication
- Project Management

Career Highlight

Software Development

Developed deep interest in software engineering during Biomedical Science studies by using technology to visualise cells using NIS elements, decoding DNA structures with ORFinder, and using R for statistics.

Completed Le Wagon Bootcamp

Completed Le Wagon's nine-week intensive software engineering bootcamp, obtaining in-depth knowledge in Ruby on Rails, Javascript, HTML, and CSS, and propelling coding skills. Acquired thorough understanding of essential concepts and technologies used in development, such as Git, Agile, and Heroku.

AWS Cloud Practitioner

Currently studying to acquire AWS cloud practitioner certification, my increased interest into how software connects people has led me to develop a deep interest in the cloud.

Projects

Adrastos

www.adrastos.org

Initiated and led the development of a social media platform that is architected around the connection of people through videogames. I have designed the index page and contributed to the entire backend.

Gamehub

<https://gamehub-kinho107.herokuapp.com/>

A Marketplace for videogames that was rapidly developed by myself and a small team in under 5 days

Mrs Cocktail

<https://mister-cocktail-marcus.herokuapp.com/>

A small project of a collection of cocktails where I use API's to parse the list of cocktails and to upload images, this was developed in a couple of days
